

# New Wave Converting CAPABILITIES

Reverse Printed Laminated	Surface Printed	Laminations
PET	PET	PET/PvDC/LLDPE
Ovenable PET	Metalized PET	PET/MET PET/LLDPE
PET/PvDC	Ovenable PET	PET/Foil/LLDPE
OPP	OPP	PET/PET HS
OPP/PvOH	Metalized OPP	Matte OPP/Foil/LLDPE
Acrylic/OPP/PvDC	Acrylic/OPP	OPP/OPP
LLDPE	Nylon	OPP/LLDPE
HDPE	Metallocene	OPP/PvDC/OPP
Nylon	Paper C1S, C2S	Nylon/LLDPE
Cellophane	Cellophane	LLDPE/LLDPE
Matte Finish PET	LLDPE	
Matte Finish OPP	Glassine	

## LAMINATIONS

New Wave produces lamination for a wide range of applications. Some products require a lamination to protect the food from oxygen (OTR) and moisture (MTVR). Other products (such as fresh cut produce) require lamination to allow a specific range for transfer of oxygen and/or moisture. New Wave does them all.

## ADDITIONAL CAPABILITIES

Slitting, cutting, perforating, bag making, 3-side seal pouch making, barrier coating, heat seal coating, anti-fog coating, and hole punch ventilation.
